

Be a part of the region's new Homesteading Expo!

March 14 + 15, 2026 | Washington State Fair Event Center

Reach over 2,000 Homesteaders!

We are on a mission to turn suburban yards into urban gardens and homesteads!

It's a movement!

According to Business Insider, Millennials and Gen Z in particular are joining the homesteading movement at a rapid rate. Over 40% of recent surveys show that the majority of current homesteaders have only just begun within the last 3 years! Let's help support this growth in sustainability, self-reliance, and a reconnection to nature.

Size doesn't matter!

Acreage or no acreage, we believe that a homesteading lifestyle can be adopted by anyone who desires it regardless of the property they live on.

So we are on a mission to turn yards into urban gardens and homesteads!

Let's encourage our audience to start where they are!

Get growing!

What are the next steps, and resources that existing and new homesteaders need? What products, services, and local resources can help them reach their homesteading goals?

THIS IS WHERE WE NEED YOU!

Don't miss this opportunity to help our communities in this healthy growth endeavor!
